

# Json

Minecraft allows you to create more advanced messages using json you can use a json text generator like this one [here](#)

To use json in a message all you have to do is put [JSON] at the start of the message

Example:

```
"[JSON][", {"text": "Example ", "color": "dark_red"}, {"text": "message", "color": "#E124E1"}, {"text": "with ", "color": "dark_gray"}, {"text": "hover", "color": "gold", "hoverEvent": {"action": "show_text", "contents": "Hover text! "}}, {"text": "text", "color": "red"}]"
```
